

10-4209

1 June 1958

Nevil Ford, Esq.

Dear Nevil:

Both Clover and I were really distressed to read your letter of 27 May. It seems like a break with the very pleasant past to think that you are leaving Woodford. However, we have known that you were thinking of this for some time and from your letter I gather that we will still have very pleasant neighbors on Lloyd Neck. Of course, I knew [redacted] well, as well as the [redacted] and [redacted] were close friends of the family.

I was vaguely thinking of coming to Long Island for the 4th of July week end but will probably be alone as Clover expects to take a trip to Mexico and do some sketching. However, with all that is going on these days I never know whether and when I can get away from my desk.

Clover joins in this letter and with me sends love to Louisa and hoping to see you both soon.

Sincerely,

Allen W. Dulles
